

PLANNED SPENDING OF SPORTS PREMIUM FUNDING 2021-22

Sports Funding has been given by the government to improve provision of Physical Education and sport in primary schools. Schools are held to account over how they spend their additional, ring-fenced funding. Christ the King will be allocated £17,980 in the 2021-22 academic year.

The school allocation of funding has been planned to address the five key areas of improvement in school sport; increasing the knowledge, confidence and skills of all staff in teaching P.E and sport; engagement of all pupils in regular physical activity; providing a broader experience of a range of sports and activities offered to all pupils; the profile of P.E and sport being raised across the school as a tool for whole school improvement; and providing an increased opportunity to participate in competitive tournaments.

To put into place a quality assurance framework to ensure gaps in staff knowledge can be targeted.		Develop	Develop	Implement	Implement	Embed	Embed	Embed

Steve Tomes PE & Sport Ltd

£9276

As in the previous years the main focus has been to continue to increase the knowledge, confidence and skills of all staff in teaching P.E and sport. All teachers reported an increased confidence and knowledge since working with the expert teacher with 100%. This feedback shows the investment in staff CPD through Steve Tomes Ltd is effective. Therefore, we will be allocating £9276 to continue this provision. Steve will also deliver an after school club throughout the year which will have a targeted focus according to the School Games Calendar and upcoming competitions. Steve will incite interest and develop skill in an area of PE in the run up to competitions and then encourage children to compete. This fits in with the strand of the action plan which focuses on maintaining participation in sports through extra-curricular activities and youth games. Within this, Steve will work with Staff to understand, plan and deliver from the new PE Curriculum that will be in place for September 2021. He will be able to support the PE lead in achieving the objectives planned for the academic year; create resources and CPD opportunities to support teachers to understand the progression of skills/ milestones and plan accordingly, create assessments that accurately reflect the pupil's ability and next steps, to put into place a quality assurance framework to ensure gaps in staff knowledge can be targeted.

Blackpool Football Club Community Programme

£4500

Two identified key areas to target this academic year are: increase the opportunities for children to participate in a wide range of sports, engage all children in regular physical activity. This has become even more prevalent after the lockdown period of the COVID-19 pandemic, where children have been less active than usual. A research study published in the Journal of Sport and Health Science (2020) looked at the projected impact of the COVID-19 pandemic on childhood obesity. It concluded that "Public health interventions are urgently called to promote an active lifestyle and engagement in physical activity among children to mitigate the adverse impact of COVID-19 on unhealthy weight gains and childhood obesity". To work toward this, Christ the King Catholic Academy have allocated £4500 to Blackpool Football Club Community Trust for a year-long package including staff CPD, lunchtime and after school clubs.

Within this, CPD workshops have been planned to support the staff with delivering the new curriculum. The focus for BFCCT when working with staff this year will be how to plan effectively using the new curriculum.

Additional new curriculum CPD

£500

With the implementation of the new curriculum, staff will have support from the PE lead, Steve Tomes Ltd and also Blackpool Football Club Community Trust. Funding has been set aside to provide additional CPD needed in order to target these gap in skill, confidence and knowledge at a group and individual level if they become apparent through the year. This CPD may take the form of courses by external providers, peer observations or sharing good practice between teaching staff. This funding allocation will support the cost of courses or release time to facilitate peer coaching time.

Facilitation of competitions

£1000

Each year, funding is allocated to facilitate children participating in competitions. This funding provides transport to and from competitions, resources, kit and equipment needed and any entry fees. For the past two academic years, these competitions have been on hold or significantly reduced. This year, one priority is to give children the experience of competing and participating again; something they have missed greatly. Every summer term, Blackpool host Youth Games where children from Key Stage 1 and 2 compete in a wide variety of sports against other schools in their local area. Every year, school enter a large percentage of the Youth Games competitions; ensuring a large proportion of the children attend and compete. This has been an effective use of the funding, giving children, many of whom don't regularly participate in competitive sport, a new experience.

Wider experience clubs

£2350

In previous years, there have been a wide variety of after school and lunch clubs available to all children. One of the additional clubs we held was Yoga led by a company called Little Yogis. The sessions were incredibly popular and always had a waiting list. We changed the age group each half term to ensure all ages would have the opportunity to try something new. This year, we are allocating £1800 to paying for a yoga club that will run for four half terms. Alongside this, £550 has been allocated for two half terms of judo. This will give children the opportunity to develop a skill and interest that is usually at a less accessible price point for families.

Contingency £354

£354 will be set aside for contingency costs.
